HERMAN Ramp

The first HERMAN RAMP was built in the front yard of some kids house. Todd and Jeff Myers and Sean Davis plus alot of other people helped built the ramp across the street from Herman school. The ramp was about seven feet tall and twelve feet wide and eight feet tall. I never really skated I much cause of the lame people never being home. Well it got torn down about two months later because of clueless neighbors who said it was to high or loud or something.

Now the ramp is in the back of Larry's house near Santa Teresa High School. It's about seven feet tall fourteen feet wide and ten

feet of flat and metal coping. It also has a hugh platform on one side thats about as big as a garage (maybe). The other side was a foot platform. Its a pretty fun, ramp that can be skated everyday without hassel or stupid permission slips. You just show up and SKATE!

GARRY DAVIS Interview

GARRY "SKATE" DAVIS, the Ohio'n who pulled his roots and moved to the coast. By far one of the bank riders who ever jumped on a board. He invented the cool "boneless one". He rides for Tracker trucks. Owns one of the coolest skate rags "SKATE FATE" and to top it all off, he's a killer artist. Only one bad thing, he lives in tracker country. Well here goes the interview.

RICK) HOW LONG HAVE YOU BEEN SKATING AND HOW DID YOU GET STARTED ?

GARRY) I've been skating for almost eight years. I got started when my friend got a board for his birthday and brought it down to my house. I've liked skateboarding ever since that evening.

Rick) WHAT DO YOU LIKE BETTER, RAMPS, STREET, OR POOLS ?

Garry) I like ramps and street about the same. Ramps are better than pools because ramps are softer to slam on. Curbs and banks are better than ramps because you don't have to spend money and build them like you do ramps. You can find them in quite a few places.

Rick) WHAT MOVES HAVE YOU INVENTED ?

Garry) I invented the "hazard" (a hand and footplant combined), the "side swipe" (too hard to explain), the "lavert" (layback into revert) and the "boneless one".

It now sports a totally innovative "V"- shaped canyon and a fresh ply of wood. The ramp is now more than ever before- just ask the S.S.G., and Pine Boys!

THE HISTORY OF THE OLD SUMMIT V RAMP.

After the park (Winchester) closed a few dedicated skaters build half pipes. There were about two or three in SKATERVILLE at the time. Stevie built Cab's ramp, and Dan, Ross, Bob Denike, and I built Wolf's ramp in our back yard in WILLOW GLEN shortly after Stevie's was built about three years ago.

The neighbors bitched, so we were forced to relocate the ramp. We moved the ramp to Ross' parents house on Summit Road high above Los Gatos in the Santa Cruz mountains. It required that the sixteen foot wide structure be cut into six pieces and hauled by flatbed trucks twenty miles. The ramp is old and creaky, but it has seen three years of northern California's best vertical contests pulled off in style because of the large

GSD Interview

Rick) DO YOU THINK THERE IS A BOND BETWEEN SKATING AND PUNK ?

Garry) No, I don't feel there is a bond between skating and punk.

Rick) WHO'S YOUR FAVORITE SKATER ?

Garry) My favorite skater is Corey O'Brien, because he is excellent to watch on vertical, but better than that, he's one of the few in the world who can functionally ride a curb. He's really good. Better than almost anyone.

Rick) WHAT BANDS DO YOU LIKE ?

Garry) Lately I've been listening to the immortal Sam Cooke.

Rick) How old are you ?

Garry) I turned 21 in december. Forget nine answers and see fit.

Rick) WHAT'S YOUR FAVORITE STREET SPOT ?

Gare) Right now, my favorite street spot is a curb paradise in Encinitas at a shopping mall. There are curbs there of every shape and degree of slipperiness, as well as curbs left apart for curb-to-curb-to-tail handplants. So there.

Rick) HOW DID YOU INVENT THE "BONELESS ONE" ?

Gare) I invented the "boneless one" while couch skating. We didn't even consider it possible. Then 3 months later, my friends started doing them on banks. They called me up and said; "We're doing that trick you thought up, come on down" so, I went down there and started doing them, at the D.O. banks. That's 4 years ago.

Rick) WHAT DO YOU THINK ABOUT THE MISS AMERICA PAGENT ?

Gare) The Miss America pagnet must find a reason to plea bargain. It's like sit lot fort. The pagent needs to change and get locked into a more progressive mode.

Rick) WHERE DO YOU THINK SKATING IS HEADED ?

Gare) I think skating is headed towards plywood. Get the picture

Rick) WHAT HAPPENED TO COLTON SKATE RANCH ?

Gare) Nothing, it was structually dismantled 2 months ago.

Rick) WAHT'S YOUR LINK IN TWS ?

Gare) As far as link goes, I don't think about fighters. I do layout, paste-up and artwork for TWS. I also write things for them. It's alot of fun.!

Rick) WHAT'S YOUR FAVORITE MAG ?

Gare) My favorite mag is SKATE SCENE, but it's not really a mag. It's a skate zine. The only skatezine. Not like other mags that steal SKATE SCENE'S column names and ideas.

Rick) WHAT'S YOUR FAVORITE TRICK ?

Gare) I believe in sketching. Leave my stuff alone! My favorite trick is frontside rock-n-rolls or tail slides anywhere!

Rick) WHAT DO YOU DO WHEN YOUR NOT SKATING ?

Gare) When I'm not skating, I work, work, work, work, and work. I might occaisionally sleep or somethin'. And eat. Oh yeah, and listen to things. And think about unoccaisional lofts.

R) HOW LONG DO YOU SEE YOURSELF SKATING ?

G) I see myself skating until something ends.

R) ANY LASTS WORDS ?

G) You could have at least asked me an even 20 questions! That's what's important.

SO I DID

R) DO YOU EVER GET HOMESICK FOR OHIO ?

G) Sometimes. I miss some of the spots back there. And APPLE skate park too. But my favorite place I've lived so far was San Jose cause of all the skaters and gigs every week.

R) DO YOU THINK THERE SHOULD BE MORE QUESTIONS FOR YOU ?

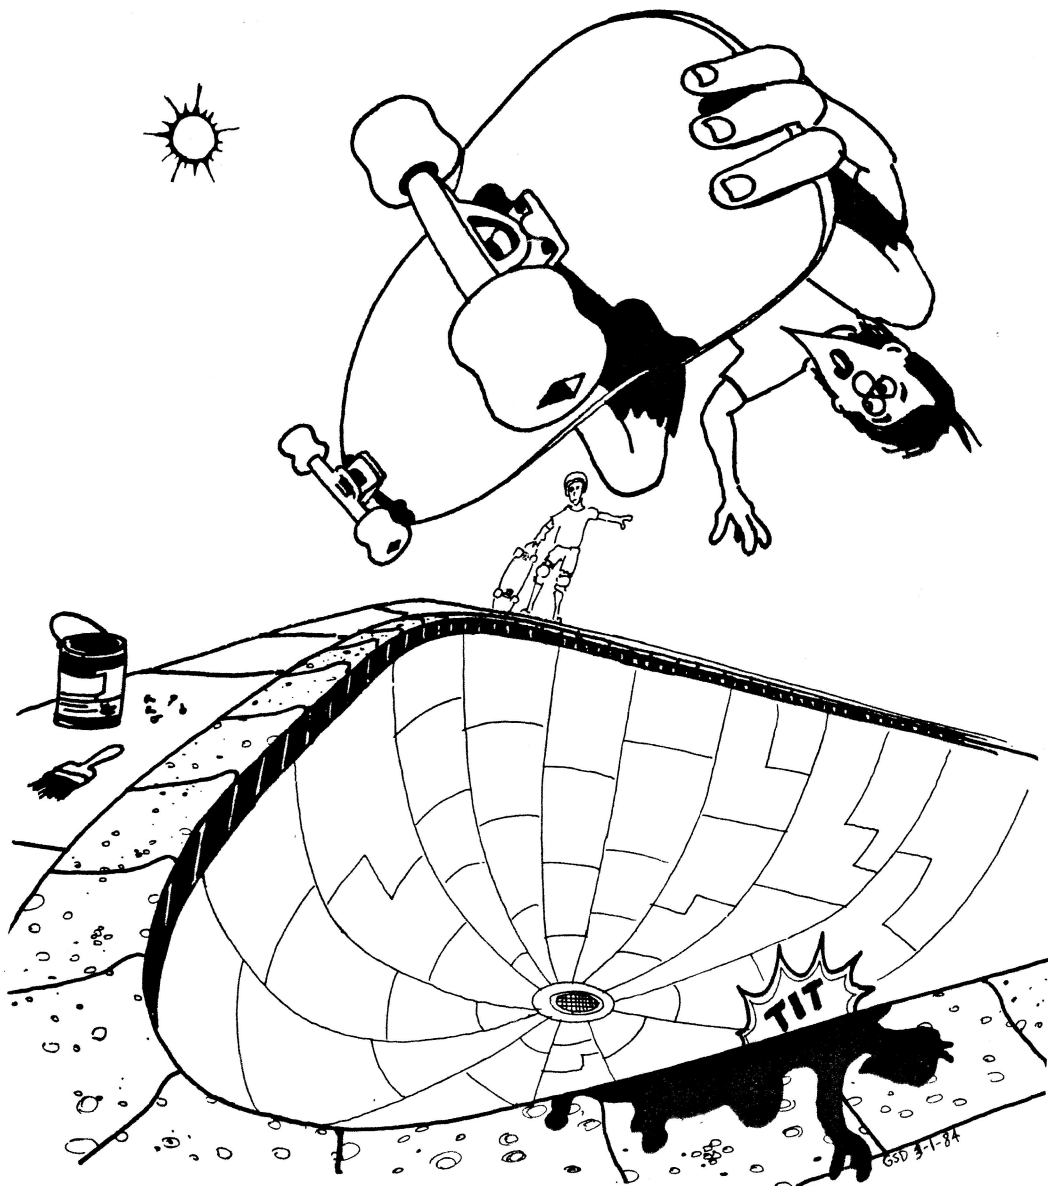

G) No, especially when I have to think them up !

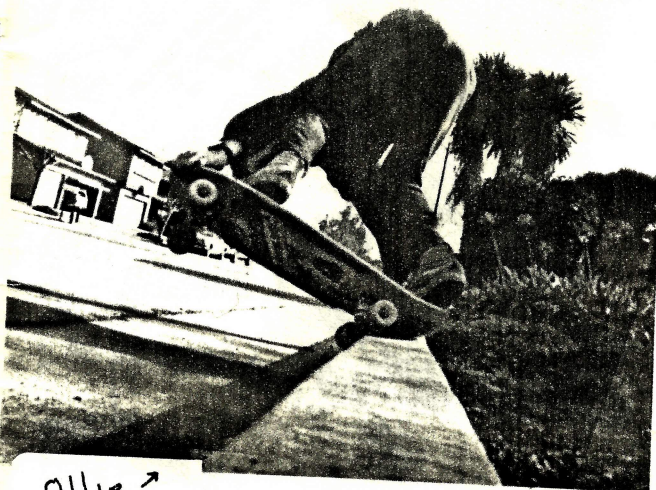

R) WHAT ARE YOUR PLANS FOR THE FUTURE ?

G) I don't want to even think about April.
